DR. J. COLLIS BROWNE'S CHLORODYNE,
THE ORIGINAL AND ONLY GENUINE

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880, to J. T. Davenport, Esq., 33 Great Russell-street, Bloomsbury, London. "Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is A DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, sir, faithfully yours Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

CAUTION.—Vice-Chancellor Sir W. Page Wood states that Dr. J. Collis Browne was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of piracy an imitation. Sole Manufacturer—J. T. DAVENPORT 33, Russell's Stree Bloomsbury; London.

H. H. THE NIZAM'S GUARANTEED STATE RAILWAY Co., LD.

ADVERTISING AT RAILWAY STATIONS.

THE PROPRIETOR of the *Bombay Gazette* Press, having leased from the NIZAM'S STATE RAILWAY COMPANY the exclusive right of advertising at all the Railway Stations belonging to the Company, is prepared to contract with parties desirous of posting notices or advertisements on the lines.

The Cantonment of SECUNDERABAD, as is well known, contains the largest military garrison in India—a garrison comprising over 5,000 British and native troops. Contiguous to it is the Cantonment of BOLARUM, garrisoned by two regiments and one battery of the Hyderabad Contingent, all officered by Europeans. South of Secunderabad, about 4 miles, are the suburbs of Hyderabad, containing the Nizam's regular troops, about 5,000 in number, officered mostly by Europeans—besides a large civil population. It would manifestly be advantageous to firms to advertise at the stations on the above railway, the most important of which are SECUNDERABAD, HYDRABAD, GANGAWARUM, and TANDUR.

The announcements may be in English or in any of the NATIVE LANGUAGES.

INSURANCE COMPANIES, SHIPPING COMPANIES, HOTEL-KEEPERS, MERCHANTS, TRADERS, and others who wish to force their business on the notice of the public, all alike value the privilege of *Railway Station Advertising*.

There is no reason why the privilege should not be also specially valuable to Advertisers in India looking to the great and increasing number of Native Railway Passengers on the two trunk lines on Western India. Native Merchants, Traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcements at Railway Stations an infallible means of extending their business.

Advertisers can select the Station at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed on an extremely *moderate scale* to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the public.

Placards, according to the taste of Advertisers may be printed at moderate charge in ENGLISH or any of the NATIVE LANGUAGES at the *Bombay Gazette* Press. Estimates on application.

RATES.

Board not exceeding 2 feet long and 2 feet broad Re. 1 per month. For every additional square foot annas 2.

Thus a firm exhibiting a board, say 4 square feet will have the advantage of having their business advertisement read by thousands of Passengers on one station platform for the trifling monthly expenditure of Re. 1. Parties advertising on six stations or more will be allowed a discount of ten per cent. twelve Stations or more, twenty-five per cent.

The boards to be delivered at the *Bombay Gazette* Office, whence they will be sent by the Lessee to the various stations selected by the Advertiser. In the event of the contract terminating, the boards will be brought back to Bombay at the expense and risk of the Advertiser.

Special arrangements for long periods.

For further particulars apply to the Manager of the "Bombay Gazette" Office, Esplanade Road, Fort

THE BHOWNUGGUR DEFAMATION CASES.

SADASHUNKER MANISHUNKER vs. GIRJASHUNKER KASHIRAM.

THE following is the full text of the judgment delivered by their lordships in this case on Wednesday last.

The accused is shown by the evidence to be editor and proprietor of the newspaper in which the alleged defamatory statement was printed. This newspaper is published in Bombay; but since its issue copies have been sent from the press at which it is published, to certain persons in Ahmedabad. It must be presumed that these copies have been sent on the accused's account. He is, therefore, responsible for the circulation in Ahmedabad of such copies of the paper as have been so sent. In the absence of proof to the contrary, it cannot be held that the persons connected with the press have acted in the matter otherwise than in pursuance of instructions received from the accused himself. There was, therefore, a publication by the accused in Ahmedabad. The statement in question is clearly defamatory, and we are of opinion that the accused has failed to prove that he acted in good faith; *i. e.*, with due care and attention in making it. The information on which he acted was far too vague to justify the specific and serious imputations made by him on the character of the complainant. We, therefore, reverse the order of acquittal made by the magistrate, and convict the accused, Girjashunker Kashiram, of the offence of defamation, punishable under section 500 of the Indian Penal Code, with which he was charged; and we sentence him to pay a fine of Rs. 500, or in default of payment of the fine, to suffer simple imprisonment for six months.

THE NAWAB INTESAR JUNG BAHADUR

The Nawab Intesar Jung Bahadur write the *Deccan Standard* completed his thirty year's service on Monday the 22nd, a day which he is known to have looked forward to, for some months past with pleasure and pride; and which he has often been heard to call his Jubilee. The Nawab believes—and no one can quarrel with him for believing.—that a long and successful record of service extending over thirty years, is sufficent to entitle a man to put a white mark against the day that puts it in his power to unharness and rest. Men of the Nawab's calibre are not given to speaking of themselves, but on this occasion he has been heard to refer to his past career in words so characteristic of his type of mine, that we cannot resist the temptation of rendering them for our readers as literally as we can.

"My ship," says the Nawab, "after a long an laborious cruise of thirty years, has at last come safely into harbour. To me it has been a most interesting voyage, and—if my log were given to the world—not without adventures and incidents both grave and gay. If my bark has sometimes glided peacefully and smoothly over the vast waters of life, it has at other times encountered gales fell and furious; a gloomy vault above, an angry sea below; iron bound banks to the right barking breakers to the left; and dangers all round. Often has this frail ship been carried away by treacherous currents and all but dashed on closing rocks, but a Guiding Hand has ever piloted it from destruction. Once it did strike on a hidden mass of breakers and was obliged to flounder for forty long months among showls and quicksands from which it was rescued by the ship called "Salar Jung." But not always has my ship been thus tossed about. It has at different times sailed over smooth seas; passed peopled shores teeming with pleasant life; passed green meadows and smiling banks of gay flowers and orchards full of luscious fruit. It has sometimes come in view of lovely islands in far off seas, peopled by humble but spiritless tribes exposed to the ravages of cruel pirates or grovelling under the tyranny of crueller customs. On such occasions, thank Heaven, we of the ship's crew, have not failed to give a helping hand to our unfortunate brethren, but have essayed, according to such light as was given to us, to rescue them from either kind of tryanny. It has, sometimes, been our good fortune to be the means of rescuing drowning men and sinking ships on the high seas. Often again our provisions have run short and we had to go long days on short rations. On occasions we have had to run through blockaded straits in which contending factions were engaged in deadly foray—not quite scathless. But sometimes we have found our passage absolutely barred and have had to throw in our lot with the faction that seemed to have right and justice on its side. We have then had to gird our loins and fight, and be content with the fortunes of war.

"Sometimes constant watching and anxiety have laid our pilot on his back and left our vessel in jeopardy. Frequently monsters of the deep have taken us for creatures of their own kind, come to disturb their peace or encroach on their domains, and have beset our bark with threatening fury and hungry maws, but their impotent efforts have done little damage to our well-mailed ship, beyond slackening its speed for a while. But worse than these were the innumerable sea-serpents and other reptiles that, avoiding the bright light of the sun, often assailed the keel of the vessel under the safe cover of the sea.

"But our voyage is now done. Its fair weather or foul, its storms and stress, its adventures and experiences are things of the past and belong to memory rather than present perception. The goal is in view, nay it has been reached. The valour and vigilance of our watchful pilot has brought us safely into the haven of refuge, the land of peace and liberty, of rest and quiet. Yonder are the variegated banners fluttering in the breeze over the heads of long parted friends come to welcome the wanderers home. Look well again! There in the crowd are the caps and gowns of the young men of Aligarh, and as the capstan turns and the ship casts final anchor, their young and cheery voices raise the defeaning shout of—Hip Hip Hurrah."

THE REVOLT IN MANIPUR.

News has reached Assam writes the *Pioneer* of a revolution having taken place in Manipur on the night of the 21st. The Maharaja's brothers have apparently seized the palace, the magazine and the four seven-pounder mountain guns which were presented to him by the Government of India. The Maharaja himself has fled to the Residency, where there are two companies of the 44th L. I., and in all probability this force is sufficient to cope with any difficulties that may arise. In the meantime the troops at Kohima are ready to march down the instant their services are needed. The Maharaja of Manipur has four brothers, all sons of Kirti Singh by different mothers. They hold between them all the important offices of the State and are thoroughly jealous of one another as well as of the Maharaja. The third son, who is entitled the Semapatti, or Commander-in-Chief of the Manipur troops, has on more occasions than one shown open disloyalty to his brother, and it is believed he is the leading spirit in the present rebellion.

COMMERCIAL INTELLIGENCE

THURSDAY EVENING, SEPTEMBER 25.

THE price of Consols fell again ⅛ per cent. in London yesterday, say to 94⅞, the market rate of discount having been put up another ¼ per cent., making it 4½ per cent. both on short London Bills and six months' sight Indian Bank Paper; and we are not surprised to receive, as we write, a telegram stating that the Bank of England rate has been raised one per cent. to-day, making it stand at 5 per cent. About £325,000 in Gold was withdrawn from the Bank of England yesterday. In the price of Bar Silver there was no further change, 52d. per oz. being still quoted; but Rupee Securities were 1½ per cent. lower in each denomination at £84⅞ and £87⅝, respectively. In New York the metal was ¼ cent lower at 113, with Exchange unaltered.

At the weekly Biddings for 15 lakhs of Council Bills on India yesterday, five lakhs were allotted to Calcutta, and only Rs. 40,000 to Bombay, and Rs. 10,000 to Madras; at 1s. 7⅞d., this rate showing a decline of ⅜d. from the previous Wednesday's sale of Bills. Fifteen lakhs will be allotted again next week. The Exchange Banks' buying rate on India, at 30 days' sight, was reduced to 1s. 7½d. The Chartered Bank of India, Australia, and China pays a dividend at the rate of 7 per cent. per annum. French Rentes advanced ¼ per cent. in Paris yesterday, to 95; Exchange on London was slightly higher at fcs. 25·27½.

Bombay Linseed was dull at a further decline of 3d. per quarter both on the spot and to arrive at 45s. 9d. and 45s. 6d. respectively, ex-quay. Wheat also was dull, No. 1 soft White and White Delhi on the spot in Liverpool being quoted ½ per cental lower, at 7s. 4½d. for the former, and 7s. 3½d. for the latter, ex-quay.

The Liverpool Cotton Market closed firm again last evening; Surats steady; with rather more doing, the day's Sales having aggregated 10,000 bales, inclusive of 2,000 East Indian. The price of Mid.-American remained at 5 13-16d., and Surats were unchanged, as also were American Arrivals for this month's delivery; but thereafter they were 1-64d. higher. The day's Imports were 6,000 bales. The Manchester Market was steady.

In New York, 10⅜ cents was still the price of ready Mid.-Uplands; but September Futures were 10 points higher, at 10·30 cents. The Receipts at the U. S. Ports were 29,000 bales, the arrivals from the opening of the new season comparing as follows with those of the two preceding years:—

	1890.	1889.	1888.
Wednesday's Receipts.	29,000	24,000	19,500
Four days' do ...	146,000	127,000	86,600
Since 1st September.	518,000	403,000	260,900

Locally, Cotton has been very quiet, the sales consisting of Chalisgaum, at Rs. 159; Barsee, at Rs. 190; and Cutch, at Rs. 160; having reached only 250 bales; but prices are without quotable change.

Although Beawar was still without the much-needed rain, and more was wanted at Wadwan; while at Nagpore the plants required fine weather, the telegraphic reports issued to-day are of a decidedly favourable tenor on the whole. Advices from the Oomrawuttee and Broach circles are especially satisfactory, the crop being reported to be excellent at Dhulia in the former, while it could hardly look better than it did at Barsee, where a larger area has been sown this season. At Hubli, in the Dharwar circle, sowing was making good progress, though more rain was needed.

WHEAT has relapsed into its previous dull state, and hardly any fresh business has transpired to-day; but we make no change in quotations for any kind.

SEEDS have been taken to only a moderate extent, and *Linseed* has lost half of yesterday's advance, being quoted this evening ¾ cent. lower, at Rs. 6-4-6 to Rs. 6-7-0 per cwt. in a quiet market. Other descriptions are unaltered.

The Receipts of Produce into Bombay yesterday were as follows:—

Cotton	530 bales.
Wheat	4,627 cwt.
Linseed	1,129 "
Poppyseed	593 "
Castorseed	4,225 "

FREIGHTS are quiet, but we have again no fresh business to report, there being nothing doing in this market.

EXCHANGE has further receded 1-16d. from this morning's quotations which were the same as those of last evening, Telegraphic, having been especially weak for near transfer. The Market closed, however, with a fairly steady feeling, further information about silver being anxiously looked for. Private Bills have continued to be scarce in spite of the fall in rates, and business has again been done between Banks. We quote:—

Bank Bills	on Demand 1s. 17/32d	per rupee.
Do.	Telegraphic....1s. 7 9-16d.	"
Do.	3 months' sight ...1s. 7 25-32d.	"

Francs	3 months' sight .....2·11	"

The usual weekly official Return relating to Silver at the Mint gives the following figures:—

Silver received during the week.....	" 43,44,000
	Rs. 1,19,00,000

Bullion belonging to private individuals...	1,02,98,000

Last week	" 1,72,53,000

GOVERNMENT PAPER has improved a little to-day, say to the extent of 1-16 to ⅛ per cent. both for Money and Account. Fours for cash closed at 103⅛, while for the two accounts 103 and 102 13-16 were quoted respectively. For the other denomination, 105 is still the nominal rate.

SHARES have been neglected on all lines and the only changes which we make in our list this evening are an advance of Rs. 5 in Madras United Cotton Mill shares; and a decline of Rs. 10 in Morarji Gokaldass, at our quotations.

The Bombay Gazette

FRIDAY, SEPTEMBER 26, 1890.

THE proceedings of the Trades Union Congress in Liverpool the other day seem to have been very largely infused with the spirit of the new political economy. We refer especially to the address of the President, a Mr. William Matkin, the Secretary of the Carpenters' and Joiners' Society. It seems to have been in many respects a very remarkable effort. There was a ring—perhaps a too premature ring—of triumph in the boast that "we are face to face with new conditions, with an educated, thinking working class, with a more humanitarian political economy sharing the doleful profits of the old system from civilized society, and with a public alive to our wants and sympathising with us." A noteworthy commentary upon this boast was delivered a day or two later at the meeting of the British Association, where the President of the Economic Section, Professor Alfred Marshall, exhibited in a characteristically impressive way the changes which economic theory has undergone in regard especially to the question of competition. We hope to refer on a future occasion to these changes as they are described in the masterly work, "The Principles of Economics," which Professor Marshall has lately brought out, and of which it is scarcely too much to say that it is an epoch-making book in economic literature. One characteristic of the new economy which favours Mr. Matkin and those who think with him is that the old scholastic theory, in regard to competition as a divinely appointed agency for establishing equity in all the relationships of industry, is fast losing ground.

The trades unionists, as represented by their President, however, look for comfort and help in something very different from mere shifcings in the ground taken up by economic theorists. They are going straight forward to State intervention and State regulation of labour. The powers of Government, they claim, shall henceforth be exercised to make the condition of the masses much more endurable than it is at present. Labour organisation they hold to be all very well in its way, but it is not to the unions, but to Parliament itself, that they look for realising the ideal Labour State, in which, to use Mr. Matkin's glowing phraseology, "equal opportunities shall be open to all; where the willing worker shall not starve, where the drones shall no longer consume the products of labour; and where human society will be so well organised and ennobled that the ignorance, the vice, the prejudices, and the follies bred of centuries of class government, shall be eradicated, and the brotherhood of man become a reality." The enactment of an eight hours' bill—which the Congress approved of by a majority of about 30 votes—is to be the first stage in the bringing about of this happy millenium; capitalists, landowners, and lawyers are to give place in Parliament to labour-candidates, and they will be run irrespective of party conveniences. The teachings of Mr. Henry George are to triumph; and no such half-hearted measure as the creation of a peasant proprietory is to be thought of. The agricultural labourer is to be kept from competing with the docker and the urban operative, and to ensure this nothing short of land nationalisation is to be thought of. From the State ownership of the soil to the State ownership of railways and mines is a natural and easy transition. The railway companies overwork their servants, and they overcharge the public. The State therefore must acquire the railways and show that it can work them in a more excellent way. In works of charity, again, the State is to be supreme. It is to put an end to the sweating system by itself undertaking the organisation of labour. Workshops and factories are to be established by municipalities, though it would seem that state predominance is to be tempered by the promotion of industrial co-operative undertakings under the management of trade societies. This, it will be admitted, is a large programme, and we should scarcely have chosen it as in all respects a manifestation of the practical good sense which inspires the English workmen when he finds himself upon the platform. "We are gravitating," says Mr. Matkin, "towards the State organisation of labour." Well, the State organisation of labour is a subject the lessons concerning which have been conveyed to us by a much more infallible teacher than the prophets of the old dogmatic political economy. These have had their say upon the subject over and over again, but experience has told us more than they have, and experience so far has somewhat severely discouraged the principle. The State in France did its best to organise labour under the Republic of 1848, and out of the many State-aided industrial establishments which had their origin then, only one has survived to our own time to proclaim the advantage of the principle towards which Mr. Matkin says society is now gravitating. We are not aware that in any other portion of the industrial field the principle of State workshops has been carried out with any larger measure of success. But Mr. Matkin himself must have doubts concerning it, since he argues for the alternative method of industrial co-operation. For this there is undoubtedly much to be said. The experience of industrial co-operation in England, so far as it has gone, has undoubtedly been encouraging. It should be remembered, nevertheless, that the world has heard a good deal more of the successes of co-operation than of its failures, and that these latter have almost invariably resulted from the exceeding difficulty of finding in the industrial class the special capacity for supervision and management which is a quality altogether apart from mere technicality.

There is, however, a great future before industrial co-operation, if workmen would only look upon it in some other light than in that of a weapon by which capital is to be fought. If the tyranny of competition is to be tempered by any means that sober-minded and practical men will trouble themselves to think about, it must be by means which will, by uniting as far as may be the capitalist and the labourer in the same personality. It is to this end that the less violent schemes of economic reform which have of late been so widely advocated in Germany have been directed. But the promoters of these schemes have not yet spoken of capital as the enemy against which labour had to fight. It would have been easier, moreover, to believe in the fitness of the English working classes to take their place in a large scheme of industrial co-operation if the Congress itself had shown a little more capacity for harmonious working. Unfortunately, the proceedings of the opening day of the Congress showed a lamentable tendency to disagreement upon at least one of the points which the President had put in the forefront of his programme. The violent and unseemly wrangle which occurred upon the report of the Parliamentary Committee gives us a poor idea of the practicability of the scheme for returning 50 labour members to Parliament. No one could have served the cause of labour in Parliament more ably or more honestly than Mr. Broadhurst has done; yet no one could have been worse requited for honorable service. There are, indeed, in many directions strange discrepancies between the ideal got up by the President of the Congress, and the facts of labour organisation. It is all very well, for example, for Mr. Matkin to picture an ideal labour state where equal opportunities shall be open to all, and where the willing worker shall not starve; but how is this ideal being carried out by Mr. Burns and his friends? The principle, new to our own time, has been introduced of organising labour into a close corporation with a limited number of members which shall claim the monopoly of the right to labour in its own particular field of industry. The dockers, for example, have formally declared that the full complement of their Union is complete. There may be 100,000 men outside who are willing to work in accordance with the rules of the Union, and to submit to the authority of its officers. The Union, however, has fixed its own members, and it declines to allow any further recruits in its ranks. If this principle is to be carried much further, trades unionism will have labour as well as capital for its enemy. Tyrannised over as the dock-labourers may have been by their employers, they will hand on the tyranny to men of their own class who have as much right to work as they have. We scarcely see the dawn of a better day for labour in this newest invention of Mr. John Burns. It reminds us of the contemptuous indifference which the Irish farmers, after they have themselves been delivered from landlord oppression, have shown towards the wretchedness of the agricultural labourers. The chief excuse that has been given for the Eight Hours' Bill, namely, that a curtailment of hours would lead to the employment of a larger number of hands, must be a sheer hypocrisy when it is put forward by men like Mr. Burns, who say that only Unionists shall work, and then proceed to exclude from the Union men who have as full a right to work as those who are in it. Mr. Burns, in fact, has carried the argument to a point at which it can better be met by the police than by appeals to either equity or logic. The President of the Trades Union Congress, it is true, gave no encouragement to this new form of industrial tyranny, and we suppose that his ideal forecast of the good time coming for labour was intended to exclude everything of that kind. The Eight Hours' Bill meanwhile has at last been approved of by the Trades Union Congress, though a powerful minority opposed it, and for some time to come it will doubtless be right to apply the principle of representation of minorities to this subject. The minority in opposition to a legislative curtailment of the hours of labour is at any rate too influential to be ignored.

THE encouraging news which has been received from the pioneer force of the British South African Company is a sufficient answer to the rumours to which the *Times* somewhat incautiously allowed itself to give currency a few weeks since. The force, which is under the command of Colonel Pennefather, is reported to have reached its destination in Matabeleland. We may learn, however, a little later that it has by this time got nearer the Zambesi than this, for it was expected a few months ago that Mashonaland, which lies due north of the country of the Matabeles, would be reached at the end of the present month. The warm welcome which the tribes have given to the force as it has passed through the country is in pleasant contradiction to the suggestion of the *Times*' correspondent that it was a deeply laid design of Mr. Cecil Rhodes and his friends to embroil themselves with Lobengula, so as to supply a pretext for invoking Imperial aid. The route was expressly chosen to avoid awakening the susceptibilities of the Matabele warriors, and thus far, as for example in the help given by the various chiefs in the construction of a telegraph line from British Bechuanaland northward, the friendliest spirit has been shown to the Company. This encouraging news from South Africa comes in timely sequence with the signature of the treaty with Portugal, which ensures to British influence what the *Spectator* calls "a broad red lane" leading from South Africa across the Zambesi, behind Portuguese and German territory to the territory of the British East Africa Company in the region of Uganda. An early result of the march of Mr. Rhodes's pioneer force will be the completion of a telegraph line from the Cape to the Zambesi. A later result will be the continuation to the banks of that river of the railway which the Company have by this month carried as far as Vryburg, in Bechuanaland. We may already ask if the time has not come when the "Cape Town and Cairo Railway" should cease to be spoken of as a dream.

A CORRESPONDENCE which has recently passed between the Post Master General and a well-known Bombay firm illustrates in a rather curious way how easy it is for a difference of opinion to arise between the official and the non-official world upon a point of detail. The firm in question, like many others, received a few days since a circular over the signature "W. P. Symonds, Post Master General, Bombay," intimating that from the 27th September the homeward mail steamer will leave Bombay at 2 p.m. on Saturday of each week until further notice. This was a polite intimation, but it occurred to at least one of its recipients that it was not as precise as it might have been. In acknowledging the receipt of the notice the firm in question informed the Post Master General that the most important information, namely the hours up to which letters may be posted, had been omitted. The suggestion was a reasonable one, seeing that for purely postal purposes the essential point is not the time at which the screw of the out-going mail steamer makes its first revolution, but the hour up to which letters may be posted. The notification as it stands is really as appropriate to the practical purposes of posting as would be a notification that the Calcutta mail train leaves Victoria Terminus at 9 o'clock every evening, and that the public will find all necessary information concerning the time up to which letters may be posted for the mail if they take the trouble to consult the notices of the Post Office. Such at least would seem to be the plain unofficial view of the matter. But the Post Master General thinks otherwise for he answered the inquiry of his correspondents by informing them that "it was not usual to include the information referred to in the general notice in question issued under his signature; but that it would be inserted in the notice regarding the hours of receipt and despatch of mails, both inland and foreign, which would be issued by the Presidency Post Master in a day or two." The rejoinder seems to have made ample amends to the chief official of the Postal Department for assuming that it was within his province to give postal information as well as mail steamer information to the public. Having thus made amends for their grave delinquency they ventured to suggest that they had not been unreasonable in expecting that all possible publicity would have been given as to the latest hours for receiving letters, instead of which no notice had yet reached them, nor had they seen any advertisement of the Post Office on the subject in any of the local daily papers. Upon the question, however, whether if it was worth while to notify the change of day of departure it was worth while at the same time to notify the hour as well, there seems to be an irreconcilable difference of opinion between the Post Master General and his correspondents, who, if they will turn to our advertisement columns this morning, will see that they are no longer left to the light of nature to learn that they may post up to half-past twelve every Saturday.

A CALCUTTA paper announces that Mr. C. E. Vansittart, Assistant Accountant-General, Bengal, whose name has been prominently before the public of late in connection with various gold mining companies, has tendered his resignation of Government service. This announcement had been expected for some time past, for Government service, it was recognized, must be irksomely superfluous to people who, having done good things in gold, are able to take home a nice little fortune of eight or ten lakhs, the shakings of a pagoda-tree which, though it may be barer than it was in the good old days, still yields fruit to those who with skill and knowledge set its branches in agitation. Mr. Vansittart, who will be remembered as having been in the Accountant General's Department in Bombay five or six years since, is understood to have shown great financing capacity in putting his enterprise upon the market, and his success in making the public of Calcutta share his confidence in the fortunes of gold-mining in Bengal has been remarkable. While clever young men in the Finance Department are to be found, able and willing to associate themselves with ventures such as those in which Calcutta has been so greatly interested of late, it seems unreasonable to complain that the Government is doing nothing for the development of enterprise in India.

WE hear that the Protestant church at Sattara was broken into a few nights ago, and a valuable black velvet pall, and some white altar linen and coverings stolen; also some bottles of sacramental wine. The velvet from the front of the altar was also cut away and stolen. The matter is in the hands of the police.

THE UNCOVENANTED SERVICE.

THE LONDON COMMITTEE CENSURED.

(FROM OUR OWN CORRESPONDENT.)

SIMLA, SEPT. 25.

The Simla Uncovenanted Committee have met twice since the finding of the Parliamentary Committee, and has published the following resolutions:—

(1.) This Committee wishes to express its strong condemnation of the action of the London Committee in declining to put forward the evidence of Mr. Ribbentrop, an accredited witness of the Indian Committees and a member of the Simla Committee, simply on theground that he intended to urge that men appointed by the Secretary of State were entitled to better terms than those appointed in India.

(2.) This Committee is of opinion that the London Committee, notwithstanding the representations, which have frequently been made by the Simla Committee, has persistently kept the service in India inadequately informed of the progress of affairs; that its action throughout the enquiry has been far too independent, and that the London Association has failed to utilise the services and assistance of the Indian Committees and representatives in the manner and to the extent it ought to have done.

(3) This Committee, without wishing in any way to interfere with the amount of money spent in connection with the Special Committee, thinks that in this matter also the London Committee should have acted in greater unison with the Indian Committees. This Committee is further of opinion that considering the relative proportions of the amount of subscriptions collected in England and India respectively, which were in the ratio of 1 to 14 as given by the official account, the London Committee ought before incurring any expenditure over and above what was absolutely necessary, to have obtained the approval and concurrence of the committees in India.

(4.) This Committee considers that the organization should be continued, but on a different basis, that the head-quarters of the Association should be in India instead of in London, but that an efficient representative should be appointed in London, who should refer in all matters of importance to the Central Committee in India, and resolves to issue a circular to all local committees explaining its views as to the form which the organisation should take.

(5.) This Committee is of opinion that the cordial thanks of the Association are due to Mr. H. S. King, M.P., C. I. E., for the valuable services he has rendered during the course of the movement.

(6.) This Committee resolves that these proceedings be printed and forwarded to Calcutta and London, and to all local Committees in India.

THE CHARGE AGAINST A CIVILIAN IN BURMA.

(FROM OUR OWN CORRESPONDENT.)

RANGOON, SEPT. 24.

The Rice case was proceeded with to-day. The Chief Commissioner will be examined on Thursday. A policeman deposed to-day that once he took a key from Mr. Rice's sleeping durwan. He took Rs. 85 from the safe, and gave it to Mr. Rice next morning.

To Mr. Moylan witness said: When Mr. Rice was absent there was no difficulty in abstracting money from the safe.

Mr. Atkinson, Officiating Comptroller, deposed that Mr. Rice's pay was twelve hundred rupees a month. He had received no pay since his suspension.

Mr. Tarleton, recalled, answering Mr. Moylan, said he had not of his own motion levied a fine on a village as Mr. Gladstone ordered him. The fine was refunded by Colonel La Touche's order, and Mr. Tarleton was asked for an explanation. Mr. Gladstone's orders, he said, were, that when dacoits were tracked to a village, the fines should be levied on the spot.

Mr. Huntly, agent to the Bank of Bengal, deposed that Mr. Rice opened an account with nearly four thousand rupees, which came from race winnings.

Mr. Thirkell White, Chief Secretary, was examined by Mr. Fox, who handed in Mr. Rice's letter in explanation to Colonel Strover, the Commissioner of Pegu. The letter said the writer was responsible for deficits, and that Mr. Symons ordered it be kept out of the treasury for payment of rewards. The witness then requested Mr. Rice's attendance in Rangoon, where Mr. Rice said he had money which he retained under orders from Messrs. Gladstone and Symons, that when transferred to Moulmein he paid it into the Bank, thinking it was his own; that he paid four thousand of his own into the Bank of Bengal, besides Rs. 8,850 police tax. This explanation not being satisfactory, Mr. Rice was suspended, and ordered to Minbu. He did not go, and was arrested at Rangoon by order of the Indian Government. On the day of his arrest, witness received a cheque from Messrs. Moylan and Eddis for an account.

Mr. Moylan here objected to using as evidence a record of proceedings against Mr. Rice by a native for Rs. 1,500 lent. The objection was overruled.

Mr. Moylan said this was a burlesque of law.

Mr. Cox said the object was to show that Mr. Rice was embarrassed; that all his pay during certain months was spent on his house at Magwe.

The cross-examination of Mr. Thirkell White was reserved.

On the Rice case being resumed again, Mr. Thirkell-White, cross-examined by Mr. Moylan, said that he served with Mr. Rice, in Upper Burma. The latter was very careless in his habits. The fact that Mr. Tarleton was levying fines on the villages was not known at the Secretariat, or it would have been stopped. He did not know whether Mr. Gladstone walked about the district with a gold umbrella, compelling natives to kneel to him. Mr. Rice, he said, now owed Government a small sum, which was disputed.

The chief Commissioner then, examined by Mr. Fox, said that he directed Mr. Rice's suspension, when the result of the enquiry reached him; and that he also directed the production of the bank-book. Mr. Rice followed him to Meiktila and got an interview with him, and told him that his previous statements were untrue, and that he had kept the money off his account under Mr. Gladstone's and General Symons' order, and that some of the balances were stolen to conceal the loss. Mr. Rice said he took the rest away, intending to repay it. Witness then proceeded that he told him that the offence would not be compounded. Mr. Rice asked if he could resign on payment. He said that he could not say, as he must treat him as he would do a native. No doubt the Indian Government will consider the restitution of the money and mitigation of the sentence. When General Symons was in the Magwe District witness had a conversation with him about the secret-service money and told General Symons that there would be no trouble, provided an application was made. So far as witness knew there was no application made. The conversation with Mr. Rice at Meiktila ended by witness advising him to tell the whole truth. Subsequently Mr. Rice wrote to witness a letter asking permission to withdraw the statement made to the Chief Secretary and the Government Advocate as untrue; and asked for mercy and permission to resign on refunding the money.

In answer to Mr. Moylan, Sir C. Crosthwaite said that he had no knowledge of any money being kept out of the books, or fines imposed. When he heard of a fine being imposed he caused Mr. Tarleton to order for its refund and told Mr. Rice that if money be kept from the Treasury by General Symons' orders, it was not a complete answer to a charge of fraud. He could not say if Mr. Rice offered to pay money before. He did not remember mentioning his father's important services in Meiktila. In conversation with Mr. Rice's father and mother, old friends of witness, nothing was said to induce Mr. Rice to think that the offence was condoned.

Here Mr. Moylan told Sir C. Crosthwaite to answer questions, and not make speeches to the jury.

After Sir C. Crosthwaite described General Symons' powers in the Magwe District, the prosecution closed.

Mr. Moylan then said that he would call no witnesses; and Mr. Fox addressed the jury. Mr. Moylan then replied.

In twenty minutes the jury returned, and the foreman announced that the jury disagreed from five to four on the first charge; and six to three on the other charges; and informed that he would find on all the charges by at least six to three. After a second retirement of fifteen minutes the jury returned a verdict of not guilty of all the charges by a majority. The court was crammed by persons of all nationalities. The result elicited loud cheering.

THE LAST OF THE DACOITS.

(FROM OUR OWN CORRESPONDENT.)

RANGOON, SEPT. 24.

A telegram from Yeu to the *Rangoon Gazette* announces the surrender of Boh Aga, the last leader of any importance in that district. He was lieutenant of the notorious Hla U, and on the chief's death planned dacoities on his own account. He has had many narrow escapes from the police. For some time he has been almost alone, and hunted from place to place. The telegram adds that the police attempted to violate his safe-conduct, but were prevented, and Aga surrendered to Mr. Tilly, Deputy Commissioner.

TELEGRAPHIC WEATHER REPORT.

SIMLA, Sept. 25.—The barometer has fallen everywhere, the fall is from brisk to rapid in Northern and Central India and Burma; moderate over the Peninsula. The depression from the Bay has now reached in the Central Provinces and the centre lying between Nagpur, Seone, and Raipur. The gradients are moderately steep except in the North-West India. Calms and variable breezes prevail in North West India, but elsewhere the winds are governed by the depression and circulate cyclonically around it. The force is high in places. The temperature is low for the season. Every where rain fallen in most of the provinces, but only in scattered showers in North West India and the Peninsula. Pachmarhi reports five, Saugor and Balasore over four, Jeypore three, and False Point and Jhansi over two inches.

BUTTONS are the jewellery of China. Consul Alabaster, in his report from Canton, recommends this trade to the attention of British manufacturers. He says the manufacture was originally introduced into Canton by foreigners, but it has been allowed to pass almost entirely into native hands, and last year over 560,000lb. of brass buttons were actually exported by the Cantonese. Mr. Alabaster thinks the trade might easily be recovered if manufacturers would introduce improved models.

POONA RACES.

FOURTH DAY.

(FROM OUR OWN CORRESPONDENT.)

POONA, SEPT. 25.

Seven races were coloured on the card for to-day; the fields, in some, which were unusually large, amply compensated for the other events, in which the fields were comparatively small, and was due to the general approval by the owners of the handicapping, which was successfully done. The weather continued fine throughout the whole day, and the backers did a splendid day's business.

1ST RACE.—"The Bhavnagar Purse."—Rs. 1,000 presented by H. H. Sir Thakat Singji, G. C. S. I., Thakore Saheb of Bhavnagar, and Rs. 200 presented by H. H. the Thakore Saheb of Wudhwan. For all horses got and foaled in the Bombay Presidency and the Berars. 3 years, 8 stone. ‡ Mile. The winner gets approximately Rs. 1,297-8; second horse Rs. 97-8; and the third horse Rs. 30.

Thakore Saheb of Wudhwan's b c b m Lady-go-fast 7st. 4lb, Gibs 1
Mr Ali Abdoola's b c b c Why Not II, 7st 7lb, Noor Mahomed 2
Thakore Saheb of Bhavnagar's b c b m Telegram, 7st 4lb, Native 3

In the Bhownugger Purse Victoria was made a hot favourite on her previous performances, but she disappointed a large number who had freely backed her as certainty. Victoria, Why Not, and Telegram took it by turns to give trouble at the post and caused considerable delay, while Lady-go-fast remained almost motionless, the general impression being she was too weak to show anything like good form. When the flag eventually dropped Victoria went to the front with a rush, but she soon showed signs of flagging and when the home turn was reached it became evident that she had been well beaten. All her rider's efforts to urge her on with the whip was of no avail. Lady came up on inside of the distance, and drew away from Why Not, and won by one length. There was five lengths between the second horse and Telegram. Time—1 minute and 25 seconds.

Betting: Evens on Victoria; 3 to 1 against Why Not; 5 to 1 against Lady-go-fast; and 10 to 1 against Telegram.

2ND RACE.—"The Pony Selling Race."—Rs. 300 from the Fund. For all Arab and C. B. ponies. Weight for inches raised one stone. Winner to be sold for Rs. 800. Distance—½ Mile. Thewinner gets Rs. 420; the second horse Rs. 30.

In the Pony Selling Race Superiority was red-hot favourite, and he won easily by about two lengths from Balotra, close behind whom was Steward. At the auction sale Superiority was bought in by the owner for Rs. 1,250. Time—1 minute and 54 seconds.

Betting: 6 to 4 on Superiority; 3 to 2 against Balotra; 5 to 1 against Doctor; 6 to 1 against Steward; and 12 to 1 against Shayida.

Mr Farmer's b c b m Iolanthe, 9st 4lb, W Greenhalgh 2
Mr Ali Abdoola's b a h Ruby, 7st 5lb, Noor Mahomed 3

Iolanthe was made first favourite for the Deccan Handicap, in spite of her top weight. Silvermane made a running till the bottom of the hill, where the field, which he had left about a dozen lengths behind gradually closed on him, and he was beaten before making a turn into the straight. The favourite was lost up to the home turn, where she came up with a rush and challenged Patna, who had secured the lead, but without success. Patna won by a length and a quarter from Iolanthe between whom and Ruby there was a similar distance. Time—2 minutes and 51 4-5 seconds.

Betting: Evens on Iolanthe; 2 to 1 against Narrow Escape; 3 to 1 against Patna; 4 to 1 against Ruby; 5 to 1against Silvermane; and 8 to1 against Saturday.

Mr Ali bin Ameer's b a h Turkish Flag, 8st 10lb, Ibrahim 2
H H Aga Khan's b ah Tenebreus, 7st 6lb, Oomer ... 3

The splendid field of thirteen, which faced the starter for the Turf Club Cup, were despatched on even terms. After few breaks-away, Hudbau and Isonomy being the favourites, Hudban forced the pace, and led to the bottom of the hill, where Tenebreuse and Merry-legs joined him. They made a running in company to the top of the hill, where Tenebreuse secured good advantage, and looked like winning, but at the quarter mile post the rearmost division came up with a rush, and the seven horses turned into a straight together at the distance post, and Isonomy drew away a little and won a good race from Turkish Flag by a short, half length. Tenebreuse finished the third. Time—1minute and 51 4-5 seconds.

Betting: 2 to 1 against Hudban and Isonomy; 5 to 1 against Turkish Flag; 6 to 1 against Tenebreuse; 8 to 1 against Dick Turpin; 10 to 7 against Soocab; 12 to 1 against Grand Duke, Child of the Desert, and Planet; and 16 to 1 against the rest.

Captain Ross's bn a h Revenge, 8st 0lb, W. Greenhalgh 3

Another big field went to the post for the Merchants' Cup, and were sent on their long journey with a little delay. Starlight was favourite with Ameer next. Red Jacket led from the start with Coral, lying in the rear; the latter appeared to be losing ground at every stride till the bottom of the hill was reached, where he creeped up, and joined his field from the turn into the straight. Young Forat took the lead and won by a length from Ameer, upsetting a good pot. Revenge was third. Time—2 minutes and 24½ seconds.

Betting: 3 to 1 against Starlight; 4 to 1 against Ameer; 5 to 1 against Plaintiff; 8 to 1 against Revenge; 10 to 1 against Coral, Buccaneer, and Young Forat; and 16 to 1 against the remainder.

THE DISTURBANCES AT GOA.

EYE-WITNESSES' STORIES.

THE following are the extracts of private letters received yesterday. The writers tendencies are towards the Ultramarine party, but the letters elucidate some doubtful points regarding the Administrator and the President of the Municipal Corporation, who, it was alleged, were not able to obtain ingress to the Municipal Hall, owing to the obstruction of the natives. The letter, dated 22nd inst., says "You must have known ere this, that yesterday was the day of election, and Margao was the theatre of dismal scenes. There was a war in miniature, many being dead, wounded, and pierced by swords. All this happened between the ordinary people and the soldiery. The cause of it was as follows:—About 8 o'clock (a.m.) on the 21st instant, 4,000 persons more or less from different villages, such as Colva, Bithalbatim, Sernabatim, Navelim, Benualim, Seraulim, Davorlim, and Aquem, assembled in front of the Margaum Church, and thence directed themselves to the Municipal Hall. After the people had assembled there came the Administrator, and the President of the Corporation, accompanied by some people, who were the Government agents and electoral hirelings. No sooner had they entered than they ordered the doors to be closed in order to nominate the Committee to receive votes and afterward to admit the people." (The nomination of the Committee ought to be made by all voters, for the success of the election is regulated by the Committee, whose appointment was intended to be made by obtaining votes of only those who were inside the hall.) "But when the people saw that doors were closed, they commenced throwing stones, smashing the glasses of the windows and the gallery, and the lamps into pieces; they then removed the door, and were disorderly. Then a force of 100 men came to the Municipal Hall, and there was at once a silence and order."

The second letter says:—"Yesterday (Sunday) there was disorder in the beginning, that is before the Committee was formed. Near the hall the people commenced stoning the windows, glasses, lamps, and even they broke the door, and when the armed force was called they retired into the church, and some went into the house of Joaquim Mariano Alvares. The Administrator sent a party of soldiers to disperse, and drive them away. No sooner had the soldiers arrived in front of the house at Mr. Alvares than a shot was fired at the soldiers, and they at once fired among the people who were inside the house, and some, 10 deaths were the result."

The mournful sensation produced by the massacre at Margaum has evoked general sympathy, writes a correspondent. A public meeting has been held at Calangute, Goa, expressing indignation against Government tyranny, and sympathising with the relatives of the killed, wounded, and the suffering people of Salsette.

The editor of the *Anglo-Lusitano* sends us the following telegram received from Ahmedabad:—"Intense indignation respecting Salsette elections. Preliminary meeting held, Mr. Ribeiro presiding. It was unanimously resolved to protest against the brutal massacre of our countrymen by Government.

While the meeting at the Framjee Cowasjee Institute was being held on Wednesday evening, the large crowd of the people who, not being able to obtain admission, were loitering about the place, were addressed by an impromptu speaker, whose sentiments elicited warm approval.

A supplement issued from the *Horas Vagas* press, giving an account of the disturbances at Margaum, and protesting against the meeting that was being held in the Framji Cowasji Hall, was commented upon very severely, and was ignominously burnt amidst the hisses of the people assembled there.

Mr. V. S. Rodrigues writes to us:—

In your account of the meeting held last evening at the hall of the Framjee Cowasjee Institute, "for the purpose of protesting against the action of the Government party as reported to have taken place during the recent election disturbances at Margao (Goa), my name appears along with those of several other gentlemen who supported the chairman of the meeting on the platform.

As a matter of fact I was not on the platform during any part of the proceedings, and, I did not, nor could, as a British subject be expected to take part in the work of a meeting, having for its object the discussion of questions affecting a Foreign Government. My presence at the meeting was only that of a silent spectator of its proceedings, unaffected one way or the other, except as a pure matter of curiosity.

The *Horas Vagas*, a Bombay Portuguese paper, which has been an apologist for the Goa Government during the controversy, issued a special supplement on Wednesday as a counterblast to the demonstration of that evening. In the course of a long article the paper says:—

Let us see whence the disorders arose, since there are people anxious to saddle the responsibility on the Government. The supplement to the *India Portugueza* of the 19th inst. gives the earliest indication, or rather a foretaste, of what was expected from the Municipal election. It says that "at a meeting held at Navelim it was decided to carry the struggle to the utmost bounds recommended by civic duties, checking the excess to which despotism and violence can carry the public spirit, so vilely mocked and deluded. The meeting," it goes on, "took unthought-of proportions, all withdrawing with the force which political sociability has the power to strengthen and multiply." The first idea of employing clubs must have arisen thence from that political sociability from whence all withdrew its strength for rows. In no other way can we explain how the struggle could be carried to the utmost bounds of civic duties and to hinder the excesses and violence of the Government. And they complain afterwards that the administrative authority asked the aid of the troops as a preventive measure against disturbances. Let us speak with a certain amount of common sense. Thousands of electors came unarmed, and yet on a slight provocation, real or imaginary, from the Administrador, they threw themselves on the troops, snatched the rifles and bayonets, and maltreated and wounded soldiers who were fully accoutred. The Administrador has to flee for his life. They stone the Municipal building, wreck the door, and put the whole city into a state of terror! And they wished after this that the Government should have remained with folded arms without sending a single soldier to appease the tumult.

The fact is that other telegrams from independent source say that the rioters employed, not only clubs, but even rifles and dynamite. For several hours the city was in perfect anarchy. All the houses were closed, the inhabitants subdued by terror, and the rioters had their own way scouring the streets in groups, completely intoxicated. It was only when reinforcements arrived from Pangim, that the Administrador was able to restore order, suppressing all stubborn resistance, when there were fatalities on both sides.

Members of the Portuguese community! The Salsette Municipal election is a sad, lamentable occurrence; but let us blame rather the speculators who tried to exploit the passions of the masses, the political money-changers who, after sacrificing on the altar of personal vanity the interests of the country, try now to celebrate their fall with the offering of the poor bread-winner, of the wretched day-labourer, who was perchance the sole support of his family! Where were then the fathers of their country, the saviours of their national honor and dignity? They incited the mob to a row, and fled when the blood of the poor victims of political speculation ran through the roads of Margao! Let this blood fall on the cowardly instigators of the disturbances! And the wretches now trim themselves at the mirror of rhetoric for theatrical effects on the platform of journalism, where they present themselves as martyrs, when they were deliberate instigators of the outrages and deaths! Why had they not at least the courage to throw themselves into the thickest of the fray to appease the tumult or die in the endeavour, redeeming thus with a courageous death a life full of ignoble tricks?

We hear that meetings and protests and other demonstrations are being prepared now. We are not surprised at this. In Bombay this is all the easier as the echoes of political passions from Goa reverberate here with all the greater intensity. What we ask for is prudence and calmness that we may not present a laughable spectacle before strangers. On the eve of the elections, our *Jacobins* went about in Goa with a Phrygian cap of liberty, singing the hymn of *Fiat Lux* (a pamphlet written by Loyolists in terms too indecent to be quoted, on the subject of the elections of April last), to which the bloodshed at Margao answered in mournful chorus. We had here fire-eaters who went to the *Times* and the *Bombay Gazette* to offer their allegiance to the British Government, ready to offer them Goa if they wished to take charge of it. But they held their peace when the respective editors answered they were not empowered to enter into transactions of this nature, and they did not believe that the Government would be anxious to alter the map of India, especially as the electoral and meeting mania of the Goanese might prove a serious danger to the stability of the British Empire.

The following telegram was received here yesterday:—

MARGAO, SEPT. 25.

Drunkenness and use of dynamite and fire-arms by popular electors is a calumny invented by Government to free themselves from the responsibility of innocent deaths. The Administrator, Commanding Officer, and soldiers fired with revolvers and rifles on the people in the pacific act of writing their protest in the presence of a public votary and three parish priests at the house of Alvares and the church compound far from the Municipal Hall. Government has suspended constitutional guarantees in order to make the popular leaders flee and terrorise the people. The dead are only of the popular party, not a single soldier or Government adherent.

THE BOMBAY ART SOCIETY.

THE annual general meeting of members of the Bombay Art Society was held on Wednesday evening, at the Sir Jamsetjee School of Art, Esplanade, for laying before them the accounts of the last year, for considering the prospectus to be issued for the next Art Exhibition, and announcing the prizes offered by friends and supporters of the Society, adopting the rules, &c. The Hon. Mr. Justice Birdwood, president, was in the chair, and among others present were:—Messrs. J. Griffiths, vice-president; G. E. Ormiston, F. W. Stevens, C.I.E., H. W. Uloth, honorary treasurer, Brigade-Surgeon Hojel, Dr. Collie, Messrs. E. Wimbridge, E. Greenwood, R. N. Mant, J. P. Watson, and Rao Saheb B. A. Gupte, assistant honorary secretary.

The president, in making a few preliminary remarks, referred to the last year's exhibition as very successful, and regretted the absence of some members, especially the Hon. Mr. Justice Scott.

Mr. H. W. Uloth, the honorary treasurer, laid before the meeting the accounts of the Society, showing a balance in hand, on the 30th June last, of about Rs. 910. The balance from last year amounted to Rs. 1,367-8-9; the gate money to Rs. 2,297-4-0; the receipt for school-children, season tickets, catalogues, commission on sales to Rs. 634-12-9; and the annual subscriptions and life subscriptions to Rs. 2,650, making the total receipts, Rs. 6,949-8-9. With sundry bills unpaid from last year, and printing, advertising, telegram, lighting, and other miscellaneous charges, the expenditure was Rs. 3,703-10-3, to which must be added contributions to the Art Industrial Exhibition Rs. 2,335-3-9, making the total expenditure Rs. 6,038-14-0, and leaving a balance of Rs. 910-10-9.

On the motion of Dr. Collie, seconded by Mr. J. P. Watson, the accounts were passed.

The rules, as revised by the committee, were submitted; and on the motion of Mr. Griffiths, were accepted as the rules of the Society.

The honorary secretary mentioned that the next exhibition of pictures, sculpture, and photography would be held early in February, 1891; and that the prospectus would be issued this week. The Judges of the High Court, Sir Dinshaw M. Petit, Bart., the Hon. N. N. Wadia, the Bombay Natural History Society, Messrs. George Cotton, H. W. Uloth, and J. N. Tata had repeated the prizes they offered at the last exhibition. His Excellency Lord Harris, Mr. Justice Birdwood, Mr. Justice Telang, the Hon. J. Macpherson, Messrs. Fazulbhoy Visram, Tribhowandas Mungaldas Nathoobhoy, B. A. Gupte, and Messrs. Bourne and Shepherd had also promised prizes; and his Highness the Thakore Saheb of Bhownugger had generously contributed four prizes of the value of Rs. 300. The honorary secretary hoped that an interesting feature of the exhibition would be pictures sent by Mr. Horace Van Ruith and other European artists; and he hoped that Mr. Griffiths's Academy Picture would also be lent for the occasion. He trusted that many of the Native Princes would take advantage of the exhibition for increasing their picture galleries.

A vote of thanks to the president and the honorary secretary terminated the proceedings.

BOMBAY MILLS AND LANCASHIRE MILLS—A COMPARISON AND A CHALLENGE.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—There are several Englishmen connected with the cotton industry of Bombay, who appear to take exception to the letter I wrote to the *Manchester Guardian* some time ago, on the above subject. To these gentlemen I throw out this challenge. I will discuss this question with any or all of them in the columns of your paper, if you will kindly allow me to do so.

I contend in the first place that the opposition manifested by the millowners of Lancashire and the Chamber of Commerce of England to the cotton industry of India is a purely selfish opposition; that their object is to try and cripple the cotton industry of this country with the avowed object of benefitting themselves.

In the second place that, taking all things into consideration, the cotton operatives in Bombay are better off than the cotton operatives in Blackburn and the district. That they work in a purer atmosphere; are easier worked, and are at the present time more contented with their lot than are the Blackburn operatives.

In the third place that the Indian Government, assisted by the intelligent natives, are the only and proper parties to legislate on the cotton industry of India.

Since writing my first letter to the *Manchester Guardian*, I have written a second letter to the samepaper, and also to the *Textile Mercury*, the *Ashton Herald*, the *Cotton Factory Times*, the *Ashton Daily Repoter*, and the *Ashton Weekly Reporter*, in which I prove my former statement from evidence taken from the English operatives themselves. I also touch upon the feeble and futile attempt of a writer who calls himself "Spindle Point," and who failed to confute one of my statements. I know I shall be at some disadvantage in this discussion, never having had the privilege of attending a school in my life. I commenced work in a cotton mill at the early age of nine years, beginning in the morning at 5-30, and leaving off at 7-45 at night with intervals for meals, of course, so that for thirty-five years without intermission, I have worked in cotton mills in England, and never lost a single day's wage during the whole time, holidays excepted, so that in this controversy, I shall only have my practical experience and observation on my side. The only stipulation I shall make is that the persons who wish to have a joust with me should sign their own names as I do. This is only fair. Unless this is done I shall not answer the letter.

Trusting my challenge will be accepted.—Yours, &c.,

ISAAC WHITTAKER,
Mill Manager.

HINDU SOCIAL REFORM.

AT a meeting at the Hon'ble Mr. Justice Telang's a few days since, the following resolutions were passed with reference to Mr. Malabari's Hindu Social Reform movement:—

This meeting is strongly of opinion that the limit of age in the case of criminal assault be raised from 10 to 12 years.

This meeting approves, with a certain amount of satisfaction, the idea of repudiation on the reaching of majority.

This meeting is convinced of the necessity of legislation in this respect, and begs to point out that the opposition attending upon the enactment of a law in this respect, will not be even equal to that experienced on the occasion of the abolition of *sutti*.

That Government be petitioned in this respect.

BOMBAY FOXHUNDS.

THE Steamer "Clan Graham" has arrived bringing 25 Couple of Hounds being the pack for the coming season. The Master thinks they are a very level lot, and appear to be in excellent health. The thanks of the members of the Hunt are due to the Captain and Officers of the Clan Graham for the excellent condition in which the hounds have arrived not a single death having occurred on the voyage. Mr. Bell again came out in charge and he is also to be congratulated in having succeeded in bringing the entire pack to Bombay in such good order.

EXPERIMENTS, says a Dover correspondent, are being conducted in the Channel near Folkestone for the purpose of testing the geological structure of that portion of the sea bed upon which it has been proposed to construct a bridge across the straits. The engineers engaged are M. Georges Hersent and M. Renaud, marine hydrographic engineer. The examination of the French coast is finished, and so far as it has proceeded on the English side of the Channel, it has, it is stated, proved satisfactory. The sea bottom is declared very solid and suitable for the proposed structure.

NOTES FROM BHUSAWAL.

(FROM OUR OWN CORRESPONDENT.)

BHUSAWAL, SEPT. 23.

WHAT rain we have had since my last letter, it veritably rained, as we say at home, "cats and dogs." One occasion we had just quiet and were forming sets for the inevitable tennis, when the rain came down in torrents. Every one naturally made a rush for the nearest shelter, and the agility displayed was even greater than that indulged in in the game, such an unceremonious rush, but so necessary, as before long the rain was streaming down, there was war up above, as evidenced by the crashing peals of thunder and the flashes of lightning. How grand, and yet how awfully sublime. At such a time one cannot help experiencing a feeling of wonderment. The second thunderstorm to which we were treated was more propitious. It came on Sunday evening, and started in unison with the melodious tones of our church bell. Of course, one could not venture out in one'sSunday best in such weather, and as it would be altogether inconsistent with old habits to go to church in anything but one's Sunday best. No one went to church,in spite of the tolling,and at last the tolling and even the thunder-storm were at rest. There was another of the popular monthly dances on Thursday week, which went off beautifully, though our spirits were at first slightly damped by the wild and awful appearance of the sky, but even that feeling soon disappeared under the soothing influence of the mazy walls; and we danced till two without being forced to shelter by any unpleasantness on the part of the elements. Bhusawal was astounded on Thursday by the appearance, on the Gymkhana ground, of a Sandwich man advertising the coming theatricals. I hastened to procure a programme. It is a good one—two screaming farces—they are invariably screaming "Done on both sides" and "Two Bonny castles," and three canaries are to warble one, an old favourite is singing that sweet Scotch ballad "We'd better bide a wee." At present we are awaiting the performance. I shall write you an account of the theatricals next week, and that will make up for the shortness of this letter. But before closing I must tell you of a pleasant—the more pleasant because it was so unexpected—surprise which awaited us poor, tired, and overheated cricketers as we left the field. There, against the scorer's table, was another table hidden beneath the folds of a snowy white cloth and bending neath the burden of innumerable cups and saucers. Two ladies, whose husbands are very keen cricketers, had come out with their servants laden with baskets, and provided for us a most refreshing cup of tea, with the most delicious of delicious biscuits, which we partook with gusto. It gladdened the hearts of us all to meet with such a bright welcome on coming off the field, and we hope that this, though the first, will not be by any means the last of such charming tea-parties.

BOMBAY MUNICIPAL CORPORATION.

AN adjourned meeting of the Municipal Corporation was held in the Municipal Offices yesterday. Khan Bahadur M. C. Murzban, President, occupied the chair and the others present were:—Messrs. Amirudin Tyabjee, Anandrao Narayen Vasudeo, Burjorji Sorabji Shroff, Bhagwandas Narotumdas, Drs. Bhalchandra Krishna Bhatawadekar, Thomas Blaney, and Cowasjee Hormusjee, Messrs. Damodar Tapidas, Damodar Thakersi Mulji, Darashah Ratani Chichgar, Dinshaw Eduljee Wacha, J. R. Duxbury, Fazulbhoy Visram, Harkisondas Narrotumdas, Jagmohandas Vandrawandas, Jamsetji Kharsetji Kama, Jamsetjee Pallonjee Kapadia, Jaya Karadi Lingu, Kavasji Pestonji, Raij Bahadur Luchmon Singh, Mirza Hussein Khan, Captain Sir Henry Morland, Naorji Beiramji Suntook, Purshotumdas Munguldas Nathubhoy, Rahimtula Khairaz the Hon'le Mr. Rahimtula Mohamed Sayani, Tribhowandas Munguldas Nathoobhoy, Dr. A, E. F. Underwood, Mr. Vandrawundas Purshotumdas, Dr. Accacio Gabriel Viegas, and Mr. J. P. Watson.

A COMPLAINT AGAINST THE ASSESSMENT DEPARTMENT.

Dr. Cowasjee Hormusjee proposed that, as recommended by the Standing Committee in their resolution, dated 20th August, the Corporation forward petitions, dated 15th and 19th instant, from Messrs. Becherdas Murlidhar and others, and Messrs. Lakshuman Purshotam and others, regarding the transfers of properties and the payment of refunds of taxes to the Commissioner for disposal in continuation of a previous similar petition, dated 20th April last.

Mr. Harkisondas Narotumdas seconded the proposition.

Mr. Duxbury, speaking about the refunds of taxes, observed that the rate-payer were not safe in having these matters entrusted to municipal officers. He had personal experience of the crude and curt manner in which the ratepayers were treated by municipal officers in respect of the refunds of taxes. There was plenty of room to amend the arbitrary manner in which rate-payers were treated by persons in that building. If members of the Corporation were treated in such an off-hand manner, what must be the treatment given to poor rate-payers who did not know English, and who were unacquainted with the provisions of the Act? In reply to a letter addressed by him to the Municipal Commissioner in respect of the refunds of taxes, all he was told was that his application could not be entertained.

Mr. N. B. Suntook entirely concurred with the remarks made by Mr. Duxbury, observing that he was also similarly treated by the department.

Rai Luchmansing brought to the notice of the Corporation a case, in which a certain party was submitted to a great deal of trouble and annoyance for a paltry sum of Rs. 12. He then moved an amendment to the effect that the petitions be forwarded to the Municipal Commissioner for remarks and report on the para. Of the petition relating to the complaint regarding the refunds and drawbacks of property taxes.

Mr. J. P. Kapadia in supporting the amendment observed that all such petitions should be read to the Corporation before they were disposed of by that body.

The Municipal Commissioner observed that it was exceedingly probable that delays did occur in disposing of these petitions for the refunds of taxes. The delays occurred for two reasons, one of which was that the assessment department was not sufficiently manned, the other reason being that they involved in some cases intricate legal questions. He had just finished his long report on the subject of the recent embezzlements in the assessment department, in which he had fully explained as far as it was possible for him to do so the necessity of increasing the grant in respect of that department, and to appoint a committee for that purpose. It was absolutely impossible to cope with the work with the number of hands they had got at present, who worked like himself till a very late hour in the evening from day to-day. The Municipal Commissioner then began to address a few remarks to the Corporation on the subject of the complaint made by Mr. Duxbury.

Mr. Duxbury: I beg your pardon, I have made no complaint. Continuing he said he wished to make a personal explanation in the matter. He recently went to England, and before he did so he wrote to the Commissioner that, as he was going home, he claimed the refunds of taxes in respect of his house. The Commissioner wrote back to him to say that he was not entitled to the refund. He again addressed the Commissioner on the question, and he was informed that as his carriages and horses were in the out-houses and as the furniture was in the house, no refund could be made. He (Mr. Duxbury) had then nothing more to say, and the matter there ended. He had, however, complaints to make in respect of matter which happened on previous occasions. He took this opportunity to refer to the subject to point out the inconvenience the rate-payers were subjected to by the Municipality.

The Municipal Commissioner read the correspondence which had taken place between him and Mr. Duxbury, and appealed to the councillors if there was anything in his letters which would in any way justify Mr. Duxbury's intemperate remarks about them. In his reply to Mr. Duxbury's first letter he said that he had the honour to state that he was unable under the Act to grant him a refund. Considering that he had to write innumerable letters every day, he wrote that short letter indicating that he could not under the law grant him the refund. In reply to Mr. Duxbury's second letter, he (the Commissioner) explained the law at some length.

Mr. Duxbury: The second letter was quite satisfactory.

The Commissioner: And the first was equally satisfactory. Continuing, he said, that he was always ready and willing to redress grievances brought to his notice by members of the Corporation as well as outsiders, and if Rai Bahadoor Luchmansing would communicate to him the name of the party referred to by him he would be glad to investigate the matter.

Dr. Viegas remarked that the grievances of the petitioners should be looked into and reported upon as soon as practicable.

Dr. Cowasjee having replied

Rai Bahadoor Luchmansing's amendment was put to the vote and carried.

THE ZOABA CHOLERA CART.

The Municipal Secretary read a petition, dated 19th August, from Mr. Lakshmikhant Ramchandra and others complaining of the condition of the Zoaba Cart. Heaps of mud were allowed to lie about, there were pools of water, they had no water there for use; evil smelling matter was allowed to lie about the street; and for years it had been a den of cholera.

Sir Henry Morland moved that the petition should be forwarded to the Commissioner for disposal, and that the complainants be referred to a recent resolution of the Corporation, to the effect that as the cart was a private one, the owners must themselves provide for their wants, and that the drains being also private, they can only be cleaned by the Health Department on a requisition from the owners.

Mr. Rahimtulla Khairaz seconded.

Dr. Bhalchundra thought an addition might be made to the resolution that the Commissioner be requested to compel the owners to keep the cart in proper condition.

Sir Henry Morland said that the Commissioner had already applied to the Standing Committee for the necessary authority.

The motion was then put to the meeting, and carried unanimously.

A NECESSARY SANITARY IMPROVEMENT.

Dr. Bhalchundra moved:—"That the Municipal Commissioner be requested to report in the course of a month—(1). The measures adopted by him with a view to meet the requirements of the resolution of the Corporation, dated 18th July, 1889. (2). Also as to how the grant sanctioned by the Corporation for the purpose has been expended and to what extent-" A year ago, Dr. Bhalchandra said, a resolution was passed by the Corporation that many of the dustbins located in different parts of the city were very old and rotten, and should be replaced by others, that many of the urinals were inadequate to meet the wants of the public, and that the Municipal Commissioner should report as to what in his opinion was wanting to bring about the improvement of the sanitary condition of the city. The Municipal Commissioner was good enough to submit a report from the Health Officer which was referred to the Standing Committee with the result that Rs. 92,458, be believed, had been sanctioned in the budget for improvements in the conservancy department. His resolution now was for the purpose of finding out what had been done, for with one exception, he had not noticed any improvement in the dustbins, which were in the same condition as they were a year ago. He also asked for the report in a month, in order to ascertain if the money sanctioned had not been enough, for the time of preparing the new budget was coming on again, and they would require to know how the matter stood.

Mr. Dinshaw Wacha seconded the motion, saying the matter was of the greatest importance; and he was very glad Dr. Bhalchandra had drawn the attention of the Corporation to it again. It was very necessary the Corporation should know what had become of the money if it was spent or if that for new dustbins had been put to any other use.

Mr. J. Duxbury said on the score of health he thought they should have a large number of additional dustbins. He also urged it on the score of economy, because it was very costly digging the matter out of the fixed dustbins, which being stirred up also created a very great nuisance.

Dr. Viegas also supported the proposition which on being put to the meeting was carried unanimously.

The Corporation then adjourned till Monday at 3 p.m.

A SINGULAR CHARGE OF ASSAULT.

AT the Girgaum Police Court yesterday, before Mr. Richardson, the acting Second Presidency Magistrate, the case of Alice Bunker and Shapoorjee Framjee vs. Rustomjee Cursetjee, an engine-driver in the G. I. P. Railway Company, Framjee Cowasjee Dharoowalla and Rustomjee Cowasjee Dharoowalla was called on for hearing, in which the two complainants, Alice Bunker and Shapoorjee Framjee, are alleged to have been assaulted by the three accused on the 26th July last, and on which occasion a gold watch and chain is also alleged to have been stolen from Alice Bunker by the first accused, Rustomjee Cursetjee. Mr. R. D. Setna, barrister-at-law, appeared for the prosecution. Mr. L. DeSouza and Mr. Morojee Cassinath appeared for the defence. It appeared about six years ago the accused Rustomjee Cursetjee Driver formed the acquaintance of Alice Bunker in London, where he had gone to obtain the certificate of an engineer. At that time Alice Bunker was in the service of a confectioner. Rustomjee then induced her to leave the service and accompany him to India on the false representation as regards his position and wealth, and also on a promise of marriage. After his arrival in Bombay he put off fulfilling his promise representing to her that in a short time his circumstances would be better. She then lived under the protection of Rustomjee at Bhosawul for one year, and afterwards in Bombay for nearly five years. About a year and a half afterwards he began quarrelling with her, and treated her with the greatest cruelty, keeping her without food, locking her up in a room, when he went out of his house for hours together. She grew tired of this treatment and explained her position and circumstances to Dr. Keay, Mr. and Mrs. Longford, and Mr. Trevethick of the G. I. P. Railway, where the accused Rustomjee was employed. They gave her every help and sympathised with her. Not being further able to bear the ill-treatment of Rustomjee, Alice Bunker accepted the proposal of the other complainant, Shapoorjee Framjee, a cousin of the accused Rustomjee Driver, to enter his services as bar-maid and she accordingly, about the beginning of June last, left Rustomjee's house, and did not return to him. The accused Rustomjee then repeatedly asked her to return, but she refused to do so. On one occasion she accompanied Rustomjee's brother to his house to ask for the return of her clothes, letters, and belongings, but he declined to give them up. On another occasion, she went in company of an inspector of police to Rustomjee's house to ask for her things, but the accused Rustomjee on that occasion made a similar refusal. Alice Bunker subsequently filed a suit against Rustomjee in the Small Cause Court for the recovery of her things, but before the case came on for hearing, and at the intercession of Rustomjee Cowasjee, the third accused, who keeps a liquor-shop at Ripon Road, and who is the brother of the second accused, Framjee, she settled the case on the understanding that all her belongings should be handed over to her. It was then arranged that she should go over to the house at once and fetch her things. The woman, in company of the other complainant, Shapoorjee and Rustomjee Cowasjee Daroowalla, went to the house at Foras Road. The accused was not there, but he had left the key of his room in charge of the owner of the liquor-shop-keeper, who handed her all her things. By mistake she left her letters on the bed, and afterwards went back to Rustomjee's house to ask for them, but they did not find him there, but meeting Rustomjee at Bellasis Road they were asked to call in the evening. Accordingly, they went there in the evening, and as soon as Alice Bunker and the complainant Shapoorjee went into the liquor-shop, the three accused and their two servants closed the door, and at once commenced to assault them brutally with sticks. During the assault the accused Rustomjee Cursetjee Driver snatched away a small gold watch and chain from the woman, and made his escape through the back door. The other two accused followed him. The two complainants attempted to get out by the front door, but finding them barred from the outside, they went out of the back door. The two complainants then made a complaint to the police. She complained of one of her fingers being bruised, and also that she was severely bruised all over her body. Miss Bunker states that she is at present in the service of the complainant, Shapoorjee Framjee, in anticipation of his getting a license to open a refreshment bar, at Picquet Road, for which she is engaged to be a bar-maid, at a salary of Rs. 30 per month, with board and lodgings. Shapoorjee Framjee, the second complainant, and a witness for the prosecution, were examined, and the case stands adjourned for further hearing.

SAVAGE ASSAULT BY A MEXICAN.

ON Tuesday last, a man, named Richard Dundas, who described himself as the steward of the s. s. Windsor, now riding at anchor in the stream, appeared before the Chief Presidency Magistrate, in an excited state, at the Esplanade Police Court, and requested his Worship to grant a summons against Antonio Barker, a Mexican by birth, who, as alleged, made a savage assault that morning on the complainant, with an iron poker. The Magistrate granted the application, and the defendant, who was the cook of the vessel, appeared before the Magistrate yesterday.

Ernest Armstrong, the engineer's steward, on board the s.s. Windsor, was called and stated that Barker was engaged as cook at Singapore, on the 1st of August. On the morning of the 23rd inst. he took his coffee-pot to the cook, and placed it on the locker in the after-part of the galley. Barker, who seems to have resented this action on the part of the youth, made use of some foul language, and struck Armstrong with his fist. The steward parried the blow with his hand, and was then knocked down upon the bunker hatch by the Mexican, who hit the younger seamen upon the forefinger of his left hand. Dundas, on hearing the row, appeared on the scene, and separated the combatants. Shortly afterwards the Mexican renewed the quarrel, and going into the galley, filled a butter-tin with boiling water, and threw it full in the face of Armstrong. Maddened with the pain of the boiling liquid Armstrong shouted for the assistance of Dundas, the chief steward. The Mexican, as stated, now rushed into the galley, and seizing a poker laid it about freely upon the two before they could take it from him. He then seized a saucepan which was on the fire, and hurled it at the head of Armstrong, but it happily did not hit him. The chief engineer, on hearing the uproar in the galley and the flying of pots and pans, managed to restore order by threatening to report the matter to the captain.

The Mexican, in addressing the Magistrate, said that the men on board used to annoy the former cook by pulling him by his whiskers. He, however, would not play with the boys on board and would not allow such liberties. On this occasion, Armstrong threw a quantity of pepper into his face and eyes and abused him. His eyes became inflamed and he laid hold of Armstrong. The steward then came up and struck him, the Mexican, across the mouth. Both of them then set upon him, thumped him, and struck him so severely with the poker that he had to get some one to help him in putting on his clothes. The steward tried to starve him, and he (the Mexican) had incurred his ill-will, because he said he was entitled to his food.

Corroborative evidence of the assault was submitted by Richard Dundas, who was also maltreated by the accused, and Joseph Patterson, and his Worship remanded the case, pending the attendance of the chief engineer whom the defendant wished to call in support of his defence.

CHARGE OF CRIMINAL BREACH OF TRUST.

BEFORE Mr. C. P. Cooper, yesterday, at the Esplanade Police Court Mr. Hormasji, of Messrs. Nanu and Hormasji, laid an information on behalf of Ookerda Ketsy, the proprietor of the Ookerda Ketsy Spinning Mill, who charged a certain Kursandass Poonja with criminal breach of trust as a servant, in respect of currency notes for Rs. 6,000. On the 23rd instant the accused, who had served the complainant for about nineteen years, was entrusted with six notes of Rs. 1,000 each for the purpose of paying it to Mr. Govindass Jaikissondass. When the accused returned he was questioned as to his delay, and stated that he had been detained at the house of the payee. On instituting enquiries the complainant ascertained that the above amount had not been paid at all, and that his servant had absconded. Information was given to the police, and notice was sent by the complainant to the secretary and treasurer of the Bank of Bombay to stop the numbers of the notes.

His Worship granted a warrant after the complainant had sworn to the truth of the above facts.

THE execution of Imamudin Nathakhan, who was sentenced to death at the criminal sessions of the Bombay High Court for the murder of Hajee Fahim, will take place at the county jail on Saturday morning, the 4th October.

REMARKABLE ARREST OF A GANG OF SWINDLERS.

A GANG of native swindlers, who recently made their appearance in Bombay and evaded the police detection for some time, succeeded in swindling both the rich and the poor alike with impunity. Although frequent complaints were made to the police, it appears on Sunday last, one of their number, Dadhoba Vishwanath called upon Mr. Kursondas Chabildas Lulloobhoy, a well-known barrister of this city, and told that gentleman that a Hinduo widow, of considerable wealth, had come to Bombay from Porebunder, and was at present residing in a bungalow at Mahim; that she, owing to some unforeseen circumstances was in urgent want of money, and was willing to dispose of a considerable quantity of gold and diamond jewellery, valued at twenty to forty thousand rupees. He added that if Mr. Kursondass was willing to purchase the jewellery, he would induce the lady to sell them to him for Rs. 2,000. Mr. Kursondass agreed to the proposal, and promised Dadhoba Viswanath to see the Hindoo lady on Tuesday following, at her bungalow at Mahim, on which occasion he also promised to bring the Rs. 2,000 with him, Dadhoba in the meanwhile to use his influence in striking the bargain for the amount he proposed. Mr. Kursondass, however, was not a man to take such a mean advantage of a poor lady in distressed circumstances, but suspecting there was something wrong, at once informed the detective police of the matter, Inspector Framjee Jamjee, of the Detective Branch, was deputed to look after this matter. That officer made arrangements to have a number of detectives in plain clothes at Mahim on the day Mr. Kursondass was to visit the Hindoo lady. The house being surrounded by detectives Mr. Kursondass, in company with one of the detectives in the disguise of a groom, carrying a box containing the Rs. 2,000, entered the house. He was there welcomed by twelve or fourteen persons who engaged him in conversation, which was however rudely interrupted by the groom-detective, who observing some of the company quietly making away with the box containing the cash, gave the signal to the other detective policemen to approach. The police rushed in, and arrested eight of the gang, the others managing to effect their escape. The eight men who are named Cummunsing Lallsing Sajaha, Seevah Geermajee, Sajooba Condajee, Garum Govind, Sewlal Lalsing, Ramrutton Bhopal, Dadhoba Visvanath, and another, were yesterday charged by Inspector Framjee Bhicajee, of the Detective Branch, before Mr. Richardson, the Acting Second Presidency Magistrate, at the Girgaum Police Court, with committing theft and cheating; and aiding and abetting each in the commission of the said offence, in respect of the sum of Rs. 2,000, the property of Mr. Kursondass Chabildass Lulloobhoy. The Magistrate on the application of the police officer in charge of the case, postponed the hearing of the same till Monday next to enable the police to complete their enquiry into the matter, and remanded the whole of the prisoners till that date.

CRICKET.

MACINE LINE C.C. VS. GLOSTER REGIMENT.

THIS return match was played on the Colaba ground yesterday, and resulted, after a close game, in a win for the M.L.C.C. by 8 runs. Pte. Yeoman, who, in the previous match carried out his bat for 39, was again successful in doing the same feat for a very good and steady innings of 29. Pte Gopia, a youth from the Marine Battalion, had the excellent analysis, on a fast wicket, of 5 for 21. The Marine Lines, who were playing a rather weak team, then took the wickets, and were fortunate in their three best men all coming off, for the tail collapsed miserably, and the requisite runs were only just knocked off in time, thanks to Mr. Carnegy's fine innings of 50.

The M.L.C.C., who have now won 3 and lost 3 of their six matches played, hope to continue cricket during the coming cold weather, and will be glad to accept any challenges from any clubs that think of doing the same.

A CONTRACT with the Italian Government has been made by one Senor Imperatori for the unearthing of a treasure which he asserts was hidden in the fortress of Amona by the Bapalini during the war in 1860. The Government stipulates that Imperatori shall deposit caution, money to the amount of 2,000 francs, and in case of failure shall restore to their former condition the places dug up or disturbed, while in case of success the Government is to have half of the treasure.

MR. FURNISS, says a home paper, is away for a holiday, desiring nothing more ardently than to escape for a time from his Parliamentary models; but so far this renowned "Parliamentary hand" has been eminently unsuccessful. As Mr. Grossmith on his continental tour detects the too familiar melodies of "The Mikado" in the very snoring of the locomotives, so Mr. Furniss has found Mr. Gladstone's historic shirt collars in the lateen sails of the Venetian boatmen, and discovered the features of Mr. Bradlaugh dimly foreshadowed in the countenance of the Sphinx. When he ascends in a balloon, the very clouds become parliamentary portraits he flies to the North Pole and there they are again. But for an adequate idea, of the extent of the persecution, the reader must turn to this week's *Punch*.

Holloway's Pills.—Factory Operatives and Workers in Manufactories.—The remarkable remedies which have been discovered and perfected by Thomas Holloway, and which have for more than fifty years been successfully used in every quarter of the globe, are especially useful in all the manifold ailments which afflict those who by reason of their occupation are confined for years, or all their lives, in crowded buildings and workshops. Holloway's Pills and Ointment are associated remedies, the former restoring the vital powers when diminished, and always acting as an efficient blood purifier, whilst the latter relieves local maladies, checks inflammation, and acts as a cleansing and healing agent in cases of bad legs, bad breasts, ulcers and unhealthy sores of all kinds.

THE NATIVE PRESS.

NAVAL ARTILLERY VOLUNTEERS.

THE *Gujerat Mitra* says:—The suggestion made in the *Bombay Gazette* for the formation of Corps of Naval Artillery Volunteers in Bombay deserves the serious consideration of the military authorities. Right of Volunteering—that is the general cry throughout India. But it is a cry that has not been fully listened to, although some initiative is already taken by the Bombay Government by enlisting a few educated Parsee youths in the existing Volunteer Corps of Poona through the personal influence of Mr. Propert. It is to be hoped that side by side with the movement for Naval and Artillery Volunteer Corps, the question that has been pressing itself upon public consideration for these few years for Native Volunteer Corps will also be looked into by the advisers of Government.

THE JAFFER SULLEMAN DISPENSARY.

The *Indian Spectator* says:—The Municipal Corporation declined at its last meeting to comply with the request made by Government that it should reconsider its decision, by which it had reduced its contribution of 500 Rupees to the Jaffer Sulleman Dispensary for Women and Children to Rupees 200. It would hardly be reasonable to quarrel with this resolution of the Corporation. The Jaffer Sulleman Dispensary was started for a temporary purpose, and the original idea was that it was to continue only until the Cama Hospital began its work; and now that the latter institution exists, it is hard to see why the Municipality should contribute to the former. In the course of the speeches made at the Corporation meeting, while the subject was under discussion, it was mentioned that the number of women and children attending the dispensary for treatment was comparitively small—smaller, it was said, than the number of women and children attending some of the private dispensaries in Bombay. It was also mentioned that the monthly expenses of the Jaffer Sulleman Dispensary were larger than the monthly expenses of the Native Dispensary at Dhobie Talao. The Government would do well to enquire if the monthly expenses of the former cannot be reasonably reduced.

LORD HARRIS AND CRICKET.

Says the *Kaiser-i-Hind*:—Once more Lord Harris has descanted on the pleasures and advantages of the noble game of cricket. His recent post-prandial harangue at Poona on the subject was interesting and instructive. The views were not only the views of an expert in the game but of the thorough English gentleman. They have a sterling ring about them, which is indeed most pleasing. A plain outspoken Englishman, Lord Harris exhorted his sporting audience to look upon cricket as a game and nothing more. Bearing also in mind a late local incident of unhappy memory, his Lordship was not slow to tender his friendly but perfectly sound advice that the sport of cricket should be pursued "with as little discord as possible." We trust this counsel from the amiable nobleman and crack cricketer will not be lost on all classes of the community who take a warm interest in the exercise of the manly and "lovable" game. His Lordship further observed that cricket was more than a game. "It formed a great tie," said he, between various colonies and dependencies of a world-wide empire. Cricket was doing gigantic work in uniting together various parts of the empire." This is the experience of one who has, in pursuit of the lovable game, travelled in all parts of the British Empire, and we Indians, especially Bombayites, ought to profit by this experience. Evidently, his Lordship has vividly realised in his own person that one touch of the cricket makes the whole world kin. That is a capital international sentiment, which we must all sedulously cultivate. We daresay it will always be a pleasure for the Bombay community—European and Indian alike—to admire Lord Harris's amiability and complaisance as the head of society.

The *Rast Goftar* discourses:—Cricket is one of those themes on which it is extremely difficult to say anything new, and therefore it is not at all surprising that the sentiments of Lord Harris at the Civil and Military cricket dinner in Poona were not much out of the common. They nevertheless derive interest from the fact that they were uttered by a distinguished cricketer who occupies the highest position in this Presidency. He has exemplified in his own case that cricket is a great leveller by taking part in several matches in Poona and Ganesh Khind, although he came out with an idea that he should forego the pleasure during the five years of his splendid exile in this land. His Lordship recalled the remarkable progress which cricket has made in England during the last forty years. The interest in this grand national game of England was not before so great as it is now, and its test is furnished by the amount of gate-money which is collected on the days of important matches. The amount is now ten times more than could be collected twenty or thirty years ago. With us here, the general interest in the game has been created only during the last four or five years, and it has very much deepened and enhanced since the great match with the English team.

THE RECENT MUNICIPAL DEFALCATIONS.

The *Kaiser-i-Hind* remarks:—The *Bombay Gazette* has in its leader of Wednesday made some very pertinent queries touching the Municipal defalcations. We agree with our contemporary that, owing to the confession of his guilt by the offender, the public has been deprived of the benefit of the information which the skill and ingenuity of the defendant's counsel might have otherwise elicited in the cross-examination of some of the Municipal officers on the system of checks in vogue. No doubt Mr. Ollivant's manual is perfect. But it seems that the somebody, whose business it was to insist upon the directions of the manual being faithfully carried out, has woefully neglected this essential part of his duty.

The *Gujerati* remarks:—The local municipality has been defrauded to the extent of over thirteen thousand rupees by a municipal rate-collector, named Jamsetji Muncherji. The disclosures made in the course of his prosecution at the Criminal Sessions show that the existing system is absolutely faulty for the purposes of effectual control over the rate-collectors. That such a large sum should have been embezzled, and that it should take nearly five months after the close of the financial year to detect such an impudent fraud, leads only to one conclusion, namely, that the present system needs thorough over-hauling. We hear that the rate-collector in question has had several decrees passed against him in the Small Causes Court during the past year. If this be true, one remedy to obviate the possibility of such defalcations in future is, that the municipality should rigorously exclude from its service such servants as are heavily ind

PURE PERSONALITIES.

HERE is a rather rough sample of colonial criticism on Prince Albert Victor's dukedom from the Sydney *Bulletin*:—"Of the four Dukes of Clarence who preceded Prince Albert Victor in the title, one was poisoned, the next killed in battle, and the third came to grief in a butt of Malmsey wine. It is feared that the present Duke will be choked by his collar."

Signora Francesca, the widow of Garibaldi, is going to marry again. She made the acquaintance of her *fiance*, Dr. Gabriel Tanferna, of the naval academy at Livourne, two years ago while he was acting as physician to her son, who was very ill. To the surprise of her friends, in the month of June, at Maddalena, she presented him as her future husband, but the wedding day is not named. She was a devoted wife, and speaks of Garibaldi's death as though it were but yesterday.

The marriage of Emilio Castelar, the Spanish Gambetta, is fixed for an early period with Madame Rute, who is thrice a widow. She married first the Comte de Solmo, a German; then the Italian Minister, Ratazzi; and last, the Minister of State, Louis de Rute. She is a beautiful and clever woman, much given to politics. All her marriages were happy ones—say the gossips. Truly a fortunate woman!

The late Emile Levy was the finest pastellist portraying the beauty of women, and hiding every defect. He was gentle and unassuming of manner. Several of his latest productions were purchased by English connoisseurs, and we may expect to see them at the next exhibition of London Water Colors.

"The cradle, my dear, lies between you and the hustings," said Mrs. Lynn Linton to a reporter of *Woman*, who asked the versatile writer why women should not be allowed the vote, and from this ground she cannot by any arguments be dislodged. People who have only read Mrs. Linton's severe strictures on the girl of the period, continues our *confrere*—or rather *concurr*—are apt to form a very erroneous idea of her personality. When she takes the pen in her hand she undoubtedly—to use her own expression—"hits out straight from the shoulder." The result is that she has countless enemies who have never looked upon her face, but who will not hear her name mentioned. In point of fact, her readers, whether they admire her books or dislike them, do not know the writer. She does not reveal herself in them. It would be a great mistake to suppose that Mrs. Lynn Linton is not a lover of her own sex.

Mrs. Lynn Linton lives in the huge block of masonry known to Londoners as the Queen Anne Mansions. Her sitting-room overlooks the St. James's-park, and whether in summer or in winter, it is always gay and fragrant with flowers. Her favorite seat is on a sofa in the corner of the room between the window and the fireplace. In this cosy nook she gives audience to each of her visitors in turn; and though it is quite possible that every one of them finds the interview far too brief for his or her pleasure, not one can complain of being overlooked in the crowd, or set aside in favor of a more distinguished personage. She likes pretty things about her, and is always charmingly dressed after a fashion of her own, which may be best described as splendid simplicity.

In an interesting article on "Lady Artists in Paris," in the September number of *Murray's Magazine*, Miss M. A. Belloc says Charles Chaplin was the first artist who opened his studio to women. The list of the women who achieved fame as his pupils is a long one: Nelly Jacquemart, whose admirable political portraits formed, for the time being, a style of art, "Genre Nelly Jacquemart;" Henriette Brown, and Madeleine Coll (Madame Lemaire).

Seeing the success which attended Chaplin's ladies' studio, his brother artists began timidly to follow suit. Carolus Duran, Bonnat, Dubufe, and Cabamel, were among the first to admit women among their pupils, but owing to many circumstances, not the least of which was the large fees demanded by the masters, the number of women art students in Paris was necessarily limited.

In the Ateliers Julian there is complete liberty; the student chooses her own masters, comes when she likes and goes when she pleases. A fresh model is provided every day.

Tony Robert Fleury, says Miss Belloc, is the favorite master, extremely courteous and good-natured he seldom, if ever, utters a harsh criticism. Jules Levebre criticises little, but never praises, and is feared by his students. Bouguereau admires in others the very opposite qualities which distinguish his own work.

Speaking of young women artists, Miss Belloc says that Mdlle. Suzanne Lemaire, Madelaine Lemaire's daughter, bids fair to follow in her mother's footsteps. Mdlle. Aline Billet is thought to be Rosa Bonheur's successor. Alfred Stevens counts among his students Mdlle. d'Aletham. Though Flemish by nationality, she has studied in Paris, and exhibits at the Champs de Mars. Mdlle. Leerobbins, though an American, must take her place amongst French lady artists. Formerly *massiere* in Carolus Duran's studio, her work can hardly be distinguished from that of her master. But of all lady artists now in France, Madame Demont Breton, the daughter and pupil of the veteran Julus Breton, has turned out the most remarkable and virile work.

It is impossible to give anything like a comprehensive list of the best French lady artists. There may, however, be mentioned Mdlle de Hem, the flower painter; Madame Pauline Dabron, whose studies of still life are a feature to the old Salon; Madame Cazim, pupil of her husband; Madame Therese Swartz, an excellent portrait painter, with a great gift for painting children; Madame Beslard, whose style resembles in no way that of her husband; Madame Roth; Madame Mutraton, the miniaturist; Mdlle. Romain, a pupil of Henlaer; Madame Weneretta Singer, whose portrait of Barrias attracted much attention at the Champs Mars; Madame Ribot; Madame Fanny Lescure, whose flowers are a feature at the Aquarellistes; Mdlle. Hildebrand, who works in chalks; Mdlle. Rozaman; and among the younger ladies, Mdlle. Godin, who won last year Marie Bashkirtseff's prize, &c.

The Dukedom has not made his Grace of Manchester a bit prouder. In spite of all temptations to belong to other stations, he remains still "Uncle Kim." An infant elephant sucking a baby's feeding bottle is on show at Belfast, and one evening the Duke, accompanied by a party of friends, including Dick Dunn, the bookmaker, visited this elevating entertainment. His Grace consented to name the animal. A table was brought into the ring, with bottles of champagne upon it, and the elephant was christened "Dick Dunn's Irish Stowaway."

A good story is told anent the sojourn of Henry George in Sydney during his recent Australian lecturing tour. It was suggested to the secretary of one of the racing clubs by a leading local politician that it would be a nice and graceful thing to send Mr. George a complimentary ticket to the race meeting that was at hand. "Who is he?" queried the secretary; "I never heard of him before." "Why, he's a man of world-wide celebrity." "Does he own any horses?" persisted the secretary. "Yes; two very fast trotters—Progress and Poverty." "Oh, all right," said the now satisfied secretary, "here's a ticket for him."

Herr Eugen d'Albert (the French-Scottish born., but now ostentatiously German composer) has, says the 'Musical World,' deserted Eisenach, and taken up his abode at Meran, where he is said to be working hard at the composition of a sonata for piano and 'cello as well as at that magnum opus, his opera. During the coming winter it issaid that he will officiate as conductor of the Philharmonic Concerts at Dresden. Herr d'Albert is already recognised as among the chief pianists of Germany: it only remains for him to gain the same rank amongst conductors.

THE DAWN OF ANOTHER DAY.

"Out of eternity this new day is born,
Into eternity at night doth return.
Behold it aforetime no eyes ever did,
So soon it for ever from all eyes is hid,
Here hath been dawning another blue day.
Think, wilt thou let it slip useless away?"

QUEEN'S HEAD HOTEL, NEWCASTLE-UPON-TYNE, 4th June, 1877.

SIR,—Will you to-day allow me to present you with this Testimonial and Poem on your justly celebrated FRUIT SALT. Being the writer for several first class London Magazines, and my occupation being a very sedentary one I came here for a few weeks, in order to see what change of air would do for me, and at the wish of some personal friends of mine here I have taken ENO'S FRUIT SALT, and the good results accruing therefrom have been my season for addressing you.—I am, Sir, yours truly, A LADY.

Free from danger, free from harm,
It acts like some magician's charm;
At any time a dainty draught,
Which will dispel disease's shaft;
More priceless than the richest gold,
That ever did its wealth unfold;
And all throughout our native land,
Should always have at their command
Eno's famous Fruit Salt!

Cool and refreshing as the breeze,
To headache it gives certain ease;
Biliousness—it does assuage,
And cures it both in Youth and Age;
Giddiness it will arrest,
And give both confidence and rest;
Thirst it will at once allay,
And what the best in every way.
Why, Eno's famous Fruit Salt!

"MANY sick people looked upon mens a physician. For a long time we had been in the centre of Africa without any medical man. Natives came with all manner of diseases. One day we had a man said to be mad. Whether mad or not, he was far from well, and I gave him a dose of Eno's Fruit Salt. The poor fellow came back next morning much better. His breath was no longer offensive, and he looked cheerful. We were sorry when our supply of Fruit Salt was done; it was a favourite both with natives and Europeans, and is much used along the malarious coasts."—"Africana," by the Rev. DUFF MACDONALD, M.A., B.D., Vol. II., p. 207.

INDIA AND ENO'S FRUIT SALT.—"Dilberghar, Upper Assam, India, March 6th, 1880. "Dear Sir,—I desire to state the advantage which I, and many others in this part of the world, have derived from your FRUIT SALT. Unlike other Saline Aperients, it is not lowering in its action. I have used it on board ship in tropical latitudes, and both there and here I can honestly bear witness that its use has warded off fever over and over again. When taken in time it is invaluable. It is most popular in this part of North Eastern Asiatic India. From my extreme individual inconvenience arising from publicity I do not wish my name to appear, and merely subscribe myself, most truly yours, 'A PLANTER.'—J. C. ENO."

CAUTION.—Examine each Bottle, and see that the capsule is marked "ENO'S FRUIT SALT." Without it you have been imposed on by a worthless imitation. Sold by all Chemists.

DR. DE JONGH'S
KNIGHT OF THE ORDER OF LEOPOLD OF BELGIUM
KNIGHT OF THE LEGION OF HONOUR
LIGHT-BROWN COD LIVER OIL

THE PUREST. THE MOST PALATABLE. THE MOST DIGESTIBLE. THE MOST EFFICACIOUS.

Incontestably proved by Thirty Years' Medical Experience to be
The only Cod Liver Oil which produces the full curative effects in
CONSUMPTION AND DISEASES OF THE CHEST, THROAT AFFECTIONS, GENERAL DEBILITY, DISEASES OF THE SKIN, WASTING DISEASES OF CHILDREN, RICKETS, AND ALL SCROFULOUS DISORDERS.

SELECT MEDICAL OPINIONS.

SIR G. DUNCAN GIBB, Bart., M.D.,
Physician to the Westminster Hospital.
"The value of DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL as a therapeutic agent in a number of diseases, chiefly of an exhaustive character, has been admitted by the world of medicine; but, in addition, I have found it a remedy of great power in the treatment of many Affections of the Throat and Larynx, especially in Consumption of the latter, where it will sustain life when everything else fails."

DR. SINCLAIR COGHILL,
Physician to the Royal National Hospital for Consumption, Ventnor.
"I have convinced myself that in Tubercular and the various forms of Strumous Disease, DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL possesses greater therapeutic efficacy than any other Cod Liver Oil with which I am acquainted. It was especially noted, in a large number of cases in which the patients protested they had never been able to retain or digest other Cod Liver Oil, that DR. DE JONGH'S OIL was not only tolerated, but taken readily, and with marked benefit."

JOSEPH J. POPE, Esq., M.R.C.S.,
Late Staff Surgeon, Army, Professor of Hygiene, Birkbeck Institution, London.
"I found during my Indian experience that the worth and character of DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL remained unchanged by tropical heat or foreign climate, and it was from its uniformity of character, particularly adapted for long-continued administration. The value of 'hydro-carbons' in all debilitated states of the system is now becoming thoroughly recognized; and it is, without doubt, from the animal oils and fats, rather than from their vegetable substitutes, that we may hope to derive the surest benefit. The Oil of DR. DE JONGH places in everyone's reach a reliable and valuable remedy, one that cannot be too widely recognized."

DR. R. C. CROFT,
Author of "Handbook for the Nursery."
"DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL is almost a specific in many of the Diseases peculiar to Infancy and Childhood, and I have seen marked benefit produced by its use. Patients prefer it to the Pale Oils, and are able to retain it more comfortably."

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL is supplied ONLY in IMPERIAL Half-Pints, Pints and Quarts, sealed with BETTS'S Patent Capsule impressed on the top with DR. DE JONGH'S Stamp, and on the side with his Signature, and the Signature of ANSAR, HARFORD & Co.; and bearing under the wrapper a Label with the same Stamp and Signatures.
